Dear Joe:

I wanted to take this opportunity to express my personal appreciation and deep sense of gratitude to you for your willingness to engage yourself with the Deloitte Impact Day. I like yourself have not been involved in such a large group of people trying to accomplish such a massive task in one day as the painting that was accomplished at Camp Wonderland on Friday, October 8, 2004.

First of all, I want to express gratitude for the huge savings that you enabled us to receive from Sherwin Williams for all of the paint that was obtained. Obviously your view of the project was far closer to reality than those who came to check out the project from Home Depot. As you have indicated, there is sufficient paint still available to finish the projects started and to complete some that we had hoped to accomplish but were not able to on that particular day. I rode all through the camp following the event and was just absolutely thrilled with what had been accomplished by the team from Deloitte.

I will certainly keep your card and name available for any potential future events particularly as it relates to painting with the hope that you might help us determine needs as well as give volunteers some guidance in the process. Thank you again for enabling us to save literally thousands of dollars and for the good guidance you gave to the volunteers enabling them to complete the task in a very meaningful and successful way.

Thanks to both you and to Keith for your involvement and assistance for this very special event.

Sincerely,

Fred Van Brunt, Lt. Colonel
Divisional Commander
